

Transparent Language® Learn on the Go with Byki Community Edition Online

Now you can continue your language learning whenever or wherever it's convenient. Transparent Language users can take their language learning "on the go" with an Apple® iPad®, iPhone® or iPod® touch or an Android powered device. Byki Community Edition is a FREE iPhone and Android App which can be used after creating a learning account at our website - www.goldcoastlibrary.org.

What is Byki Community Edition?

Byki is the fun and addictive way to learn a language. It locks words and phrases into your memory so you can recall them perfectly and remember them forever. It also tracks your learning progress with statistics on the number of items you have learned and lets you test your knowledge with quizzes. Whether you're learning a language for school, work, or personal development before you know it, you'll be speaking another language with ease!

How do I get my Free Byki Community Edition?

Byki Community Edition is available for free on the iTunes App Store and Google Play.

iPhone, iPod Touch, or iPad:

Navigate to the Apple App store. Search the store for "Byki for iPhone Community Edition" and click "Install" (internet connection required).

Android:

Open the Market application on your device and search for "Byki Community Edition".

How do I activate Byki Community Edition?

Before you can use Byki Community Edition, you need to activate the app with a special code. Simply follow the instructions below to complete the installation of Byki Community Edition on your iOS or Android device:

From your computer, log into www.goldcoastlibrary.org, click eLearning, click on Transparent Language, click on the "Byki Mobile" icon on the home page.

Click the "Get Activation Code" button to obtain your unique Byki Mobile Authorization Code.

Launch the Byki Community Edition software on your iPhone, iPod touch, iPad, or Android device. When prompted, enter the Byki Mobile Authorization Code. Your device will then download the appropriate Byki lists and languages corresponding to your Transparent Language Online account. (internet connection required)
